ABOUT US...

Zonta International has been bringing professional women and men around the world together for the common mission of empowering women since 1917.

We give club members local opportunities to support their communities while also focusing on larger international projects that empower women and bring about sustainable change to ensure that each generation is stronger than the last.

Zonta International and its nearly 1,000 Zonta clubs continually advocate to change toxic, harmful cultural norms and control attitudes that have hindered gender equality and women rights for all.

Zonta International's programs, projects and actions build a better world by:

- Improving women's health and education
- Ensuring women's economic empowerment
- Strengthening women's representation in decision-making positions
- Working to end violence against women

WE SHALL NOT REST UNTIL:

- Women's rights are recognized as human rights and every woman is able to achieve her full potential
- Every woman is literate and has access to education, health care, and legal and economic resources on an equal basis with men
- The world is free from violence against women

LET'S GET SOCIAL
